Dear Sir:

Greetings !

I would like to bring to your notice the help I received from your crime branch team headed by Additional CP Ravinder Yadav, ACP KPS Malhotra and his team, who helped me solve an almost impossible case of finding my car. My car Toyota Innova was stolen from outside my house on 30th December 2013 and was reported in Ashok Vihar police station 452/13.

I read an article in newspaper about a gang he cracked on car theft and I found his details from helpline and shared my car details and other information related to the car.

He and his team worked honestly and earnestly to help me find my car, in the 15 days time since we interacted.

I am really impressed with the dedication, support and helpfulness the team rendered and I am very sure this case was uncrackable without their support.

All my friends and colleagues found this story almost unbelievable that I could manage to have the support from police without any influences and pressures from anywhere.

I would like to extend heartfelt thanks and kudos to the team in your department.

Kind regards
Vandana Bhatia
